

the CUBE

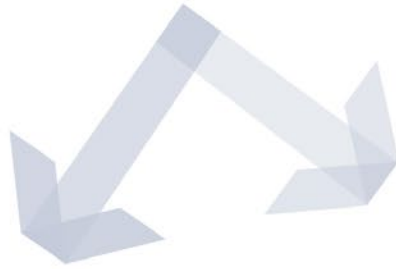

by ROBOFUSION

FROZEN YOGURT has been radically reinvented. The **fro-style 9 CUBE™** from Robofusion utilizes only 1 square metre of floor space but packs quite the punch. The CUBE is fully automated, delivering up to 60 servings per hour of customised fresh yogurt goodness. Customers can layer or blend up to 3 froyo flavours (of 9 options) and choose from 6 toppings. Never thought you had the space, capital or labour budget for frozen yogurt? Think again.

HOW DO YOU FROYO?

LAYERED

BLENDED
